Alumni Night
Location: W1 Forum

DIPLOMA IN MEDIA PRODUCTION & DESIGN

"Dream Chaser"
The short film, created using Virtual Production techniques, follows Lina, a Biomedical Science student navigating high expectations from her strict mother while secretly nursing her passion for art. Coping with her father's traumatic death, Lina battles emotional neglect, nightmares, and fear of failure. Supported by her best friend, Chloe, she must confront her scars and choose her own path. The film highlights the importance of self-fulfillment, balancing expectations, and raising awareness for parents to support their children's individuality.

Singapore Needs You, What's Your Role?
The project focuses on creating narrative videos for the SGSecure Programme Office (SSPO) to educate youths aged 15-35 and the public on the importance of staying vigilant and reporting suspicious behaviors or signs of radicalization. Using an abstract storytelling approach, the videos metaphorically emphasize vigilance, resilience, and community roles in preventing and responding to terrorism. The initiative aims to equip audiences with knowledge and inspire collective responsibility to keep Singapore safe from terror threats.

DIPLOMA IN SONIC ARTS

Merlion The Musical.
As part of the President's Challenge in collaboration with Musical Theatre Live (MTL), the team managed the sound design, audio recording, mixing, and mastering for Merlion the Musical.

The team also served as playback engineers and backstage crew, delivering audio support to the cast and ensuring seamless live performances.

DIPLOMA IN DESIGN FOR USER EXPERIENCE

"SYMBIOSIS"
The project SYMBIOSIS is an annual graduation event dedicated to showcasing the Final Year Projects of STA's Year 3 Students. It is a digital and physical platform designed to showcase graduating students' work and connect them with industry professionals. It was designed to deliver an engaging, user-friendly experience.

"Scam Campaign"
For this project, the team collaborated with Mediacorp through their Scam Campaign, #ScamAlert, where they researched about the various scam personas. This project aims to educate users in an enjoyable yet impactful way. The team also hope to raise awareness and educating the public on the growing problem of scams.

DIPLOMA IN ARTS & THEATRE MANAGEMENT

Scarce City
Scarce City is an immersive and interactive Arts X Tech experience that will be held from January to March 2025 at the National Art Gallery.

It aims to engage audiences in conversations about the climate and provoke reflection around personal and community change to preserve the environment. One unique point of the event is using recycled material to create 3-dimensional rocks for their walls via additive manufacturing.

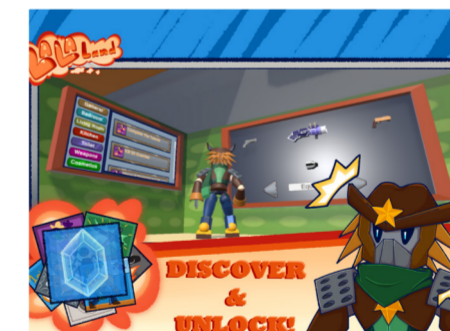

Chingay 2025
The team designed a Chingay float which showcased hawkker culture, with a young female hawkker presenting diverse dishes that symbolizes unity.

DIPLOMA IN DESIGN FOR GAMES & GAMIFICATION

"Lalaland"
Lalaland is a third-person Sandbox game made for young adults to reignite their childhood memories, which is done by making them assume the role of a toy that goes around completing tasks related to everyday household items, such as finding missing milk bottles, or eliminating sentient like eggplant monsters.

"Interlude"
Interlude is a first-person roguelike action RPG set in a sci-fi world, inspired by Cyberpunk 2077 and Vampire Survivors. It aims to provide an experience in which the player feels more powerful as they progress. The goal is to defeat the final boss, earning perk points to upgrade abilities while battling enemies.
